# Benefits of fiberization

- ✓ Fiberization of BTS(base trans receiver station) is connecting of BTS with optical fiber so that BTS could handle more of Voice and Data traffic.
- ✓ Benefits of fiberization:
  - I. Better Quality of Service for mobile coverage
  - II. Higher internet speeds
  - III. More transparent E-governance
  - IV. Will attract more investments from industry in areas with better coverage
  - V. Better coverage and internet speeds in public institutions like hospitals, government offices, schools etc.

D.O. No. 9-1/2023-IC

31<sup>st</sup> August, 2023

*Madam / Sir*

This refers the DO letter by Secretary (Telecom) dt. 19.06.2023 inviting your State/UT to Indian Mobile Congress (IMC) 2023 (copy enclosed). This event, which is scheduled on 27-29 October 2023, will harness India's expertise in cutting-edge technologies such as 5G, 6G, drone, IoT, broadcasting, satellite etc. and provide a platform to showcase new technological innovations, driving meaningful technical sessions, policy discussions, facilitating enriching connections. The theme of IMC 2023 is "Global Digital Innovation".

2. As you may be aware, DoT and its organizations have conducted several State workshops related to innovation promotion such as 5G Hackathon, DCIS (Digital Communication Innovation Square), TTDF (Telecom Technology Development Fund) scheme, 100 5G labs. Subsequent to the launch of 5G services during October 2022, several Startups and Institutions/Centre of Excellences have started to develop 5G use case applications and advanced communication products across India.

3. To encourage and showcase this hyper-local digital innovation of states, under the theme of "ASPIRE", a dedicated space of 10 Pods each for States / 2 Pods each for UTs is allocated free, for the demo of 5G use cases/advanced communication products identified by States/UTs administration in IMC 2023.

4. To facilitate startups from your State/UT, Shri Amit Kumar Chauhan, Director, National Broadband Mission (email: dir3@broadbandmission.gov.in, Mob: 9869002302) for use cases and Shri Pradeep Prakash (pradeep@indiamobilecongress.com, 9810657493) for space have been instructed suitably.

5. You are, therefore, requested to indicate the names and details of startups being sponsored by your State/UT by 15th September, 2023.

*With regards*

Yours sincerely,

*(V.L. Kantha Rao)*

End: As above

## CBuD-Action Required

- (i) All State departments to issue instructions mandating use of CBuD App prior to any type of excavation / digging,
- (ii) Randomly monitor digging activities in cities/towns and if not informed through CBuD App, take suitable action(s) viz. do counselling in presence of TV/Print media for wide publicity, issue notice, file FIR, etc. as per DoT's IT Infrastructure Safety Rules 2022.
- (iii) 'Excavation permission' issuing authorities to include a line in the approval letter itself in this regard such as "Agency which is excavating must use the CBuD App before commencing any excavation on public lands/roads in the State".
- (iv) Awareness workshops for departments as well excavators.
- (v) States to notify rules for State specific assets viz. Water pipeline, Sewerage pipeline, electricity cable, Gas/Petroleum pipeline, Roads, etc. similar to DoT's Indian Telegraph (Infrastructure Safety) Rules.

# To create institutional mechanism for common duct to reduce cost

## **To create institutional mechanism for common duct with common interest to reduce cost**

- Multi stakeholder Committee by DoT finalised a "Draft Standard for Common Duct and Post infrastructure along Highways and public pathways"
- An advisory 'Draft Policy Guidelines for Establishment of Common Duct and Post Infrastructure' has been circulated to all the State Governments/ UTs on 12.10.2022.
- It covers installation of common ducts and posts, management and operation of such ducts and posts and charges to be levied for installation, management and operations of such ducts and posts.

Action required: All States/UTs may examine the advisory and may adopt and create mechanism for creation of ducts for public utilities for green field projects (roads, gas pipeline, electricity, water, telecom etc)
